5 STEPS FOR PROJECT SUCCESS

When it comes to setting up your site on the JXT platform, we want you have the very best experience, and get the most from your investment. To make sure this happens, we've got some recommendations that will keep excitement high, stress low, and deliver great results.

1. ASK QUESTIONS

Is there anything you're unsure of about the project plan or the way it's progressing? Please ask early on. Everyone at JXT is here to support you and no question is too small for our time and attention.

2. PLAN RESOURCES

Getting your team ready now will help as the project progresses. Let everyone know what they need to do to deliver on their part of the project. It's also a good time to chat to us about any additional resources you might need, for example copywriting, social or SEO.

3. MEET EVERY WEEK

Keeping everyone in the loop is vital. Meet with your stakeholders regularly and make time to talk to your JXT project team at least once a week.

4. KEEP UP TO DATE

It's important that you monitor progress and know what you need to deliver for the next stage in the process. Let us know as soon as possible if you might miss a milestone. That way we can help you and keep the project on track.

5. TEST THOROUGHLY

UAT is critical to ensure your project is a success. We recommend that you allocate plenty of time and resources for testing and review.

What are the next steps for project success? Here are the upcoming numbered fact sheets:

- Preparing for UAT
- Going live – what you need to know
- What next for success?

NEED HELP?

We hope these help you to manage your side of the process and keep your team and business engaged. If you'd like further support or suggestions on how to take your project or site to the next level, we're ready to help out.

You can speak to your team or anyone at JXT who will be happy to answer questions.

Call us on 02 9955 7170 or email projects@jxt.com.au
